COLOR research and application
Index to Volume 21, 1996

This is the ninth index to *COLOR research and application*. It covers Volume 21, 1996.

In the Subject Index, items are listed under one or more subject categories (listed below) ranging from Aesthetics to Whiteness. The title of the item is followed by the author(s), volume, page, and year. If the item is a Classic Article, Color Forum, Communications and Comments, or Meeting Report, the appropraite words will appear after the title; articles are not specifically designated in this way. Book and video reviews are listed as "Review of . . . ."

The Author Index is similarly structured within listings. Items are listed under the name of the first author, in alphabetical order. Co-authors are listed and cross referenced.
